To All Press:

At 112 Glass House Studio we pride ourselves with exceptional craftsmanship, innovative ideas, and hands-on customer service. We are interested in reaching a network of designers and decorators to encourage the inclusion of hand crafted work into contemporary design.

We are an independent, Brooklyn-based business specializing in the production of glass mosaic art. Since 2015, we have worked with our clients to develop custom works to decorate and define the home, and possess over fifteen years of experience in our field. Our work is always handmade and custom crafted to create the unique expressions of style that homeowners, businesses, designers, and public institutions search for.

We would like to promote our virtues of one-of-a-kind, handmade pieces. We are available to interview at your convenience, and would appreciate your consideration in featuring us.

Thank you for your time,

112 Glass House Studio
